

I am writing to express my support for a national and regional broadcaster with local FM translators, K-LOVE.

K-LOVE is a positive and encouraging radion station in my area that I and my family of young children can listen to without hesitation. I know the songs and the commercials heard on this station will not be offensive to young ears. There would be a negative impact on the Raleigh, NC community if this station were no longer allowed to broadcast in our area.

I believe that the type of programming that K-LOVE offers is in the public's best interest and support them keeping their broadcasting rights.

Thank you for your consideration.
